

The Rescue

stalled-deal-escalation · built in pipedrive

Your stalled-proposal problem is the one I'd fix first, because it's the one quietly costing you deals.

What it connects to: The CRM knows the deal stalled. It does not know who to chase, on what ladder, or how to prove it chased. That state has to live somewhere the CRM cannot hold it.

1 of 4 SYSTEM

Here's the system that watches for a deal that hasn't moved and escalates before it goes cold.

2 of 4 THINKING

This is the gate underneath it — it checks whether anyone actually touched the deal, not just whether time passed.

 Has anyone touched it inside the window?
