

The Onboarding Build

client-onboarding · built in hubspot

The first 48 hours set the tone for the whole engagement, and they're usually improvised.

What it connects to: Won in the CRM has to become tasks in the project tool, a folder somewhere, and an intake the client actually returns. Three systems, one moment.

1 of 4 SYSTEM

Here's what fires the moment a deal flips to Won — welcome, checklist, intake, escalation.

2 of 4 THINKING

It escalates if the intake hasn't come back by day two, rather than waiting for someone to notice.

The screenshot displays a workflow editor with a central configuration panel and two side panels labeled INPUT and OUTPUT.

Central Panel:

- Title:** Did the intake come back inside two days?
- Tabs:** Parameters (selected), Settings.
- Execute step:** A button in the top right corner.
- Conditions:**
 - Expression: `{{ $json.intakeReturned === true && $json.dayCount <= 2 }}`
 - Dropdown: is true
 - + Add condition
 - ☐ Convert types where required
 - Options: + Add option
- Footer:** ? I wish this node would...

INPUT Panel (Left):

- Icon: →|
- Text: No input data
- Button: Execute previous nodes
- Text: to view input data

OUTPUT Panel (Right):

- Icon: |→
- Text: No output data
- Button: Execute step
- Text: to view output data

Bottom Bar: Logs

Running in the CRM, triggered on the status change rather than a stage drag.

The screenshot shows a CRM email editor interface. The top navigation bar includes a 'Back' button, 'File' and 'Help' dropdowns, the title 'SAMPLE - New Lead Welcome Email (draft, do not s)', 'Autosaved' status, and 'Preview & test' and 'Review and send' buttons. Below the navigation bar, there's a 'Display' dropdown and an 'Estimated size: 17.8KB' indicator. The main editor area is divided into a left sidebar and a right content area. The sidebar, titled 'Add', has tabs for 'Modules' and 'Sections'. It contains a search bar and a list of 'All default modules (9)' categorized into 'Base' (Text, Button, Social, HTML), 'Media' (Image, Video), 'Structure' (Divider), and 'Ecommerce' (Cart, Payments). The right content area shows the email draft with fields for 'Send to:', 'Don't send to:', 'From: Seth Forte (seth@launchforte.com)', 'Subject line:', and 'Preview text:'. The email body features a large 'Company logo' placeholder, a welcome message, and three numbered sections: '1. Showcase your best stories', '2. Help people get to know you', and '3. Keep the conversation going'. A 'Thanks.' line is at the bottom. A 'Chat' and 'Help' button is visible in the bottom right corner of the email body.

Welcome friend, thank the reader for signing up to your newsletter and welcome them on board. Below your introduction, add a few links to some popular pages or posts on your website to give the reader an idea of what's to come.

1. **Showcase your best stories**

Give an overview of an existing blog post or a popular story from a previous newsletter. Be sure to add a [link](#) so the reader can learn more.

2. **Help people get to know you**

Share a link to your website's [about us](#) page where the reader can learn more about you and your community.

3. **Keep the conversation going**

Tell your reader how they can get in touch if they have questions.

Thanks.

Chat Help

4 of 4 RESULT

And the onboarding assets it assembles.

The screenshot displays the HubSpot landing page editor interface. At the top, a dark navigation bar contains links for Back, File, Edit, View, Settings, and Help. The page title is 'SAMPLE - Free Estimate Landing Page (draft)', and it is marked as a 'Draft'. On the right, there are buttons for 'Autosaved', 'Preview', and 'Publish', along with a notification badge showing '1'.

Below the navigation bar, a toolbar includes icons for desktop and mobile views, a search icon, and a 'Settings' button. On the left side, there is a sidebar with a '+ Add modules' button and a search bar. Below this, a 'Theme (18)' section lists various modules: Accordion, Anchor, Button, Card, Countdown timer, Feature list, Heading, and Horizontal menu. A 'Show more' link is also present. Further down, there are expandable sections for Text (4), Commerce (3), Design (9), Functionality (3), and Forms and Buttons (2).

The main editing area shows a landing page draft. At the top, a message states 'Remove HubSpot branding from this landing page, and everywhere else.' with a 'Built on HubSpot' badge and an 'Upgrade' button. Below this, there is a 'No logo' placeholder with the text 'Click to add a logo'. The main heading reads 'Watch for a sneak peek of the event'. Below the heading, a paragraph says 'Watch our teaser video for a glimpse into the inspiring keynotes, interactive workshops, and networking opportunities that await'. At the bottom right, there are 'Chat' and 'Help' buttons.
